

# **ORIENT CURRENCY RATE SHEET APPLICATION**

## **User Guide for Branch User**

### **Introduction –**

The Orient Currency Rate Sheet Application is a standalone system developed to efficiently manage and display currency exchange rates across all branches of Orient Exchange. The application allows the branch users to push official rates, while also enabling branch-level adjustments and control based on local business requirements.

### **Purpose**

The primary purpose of this application is to:

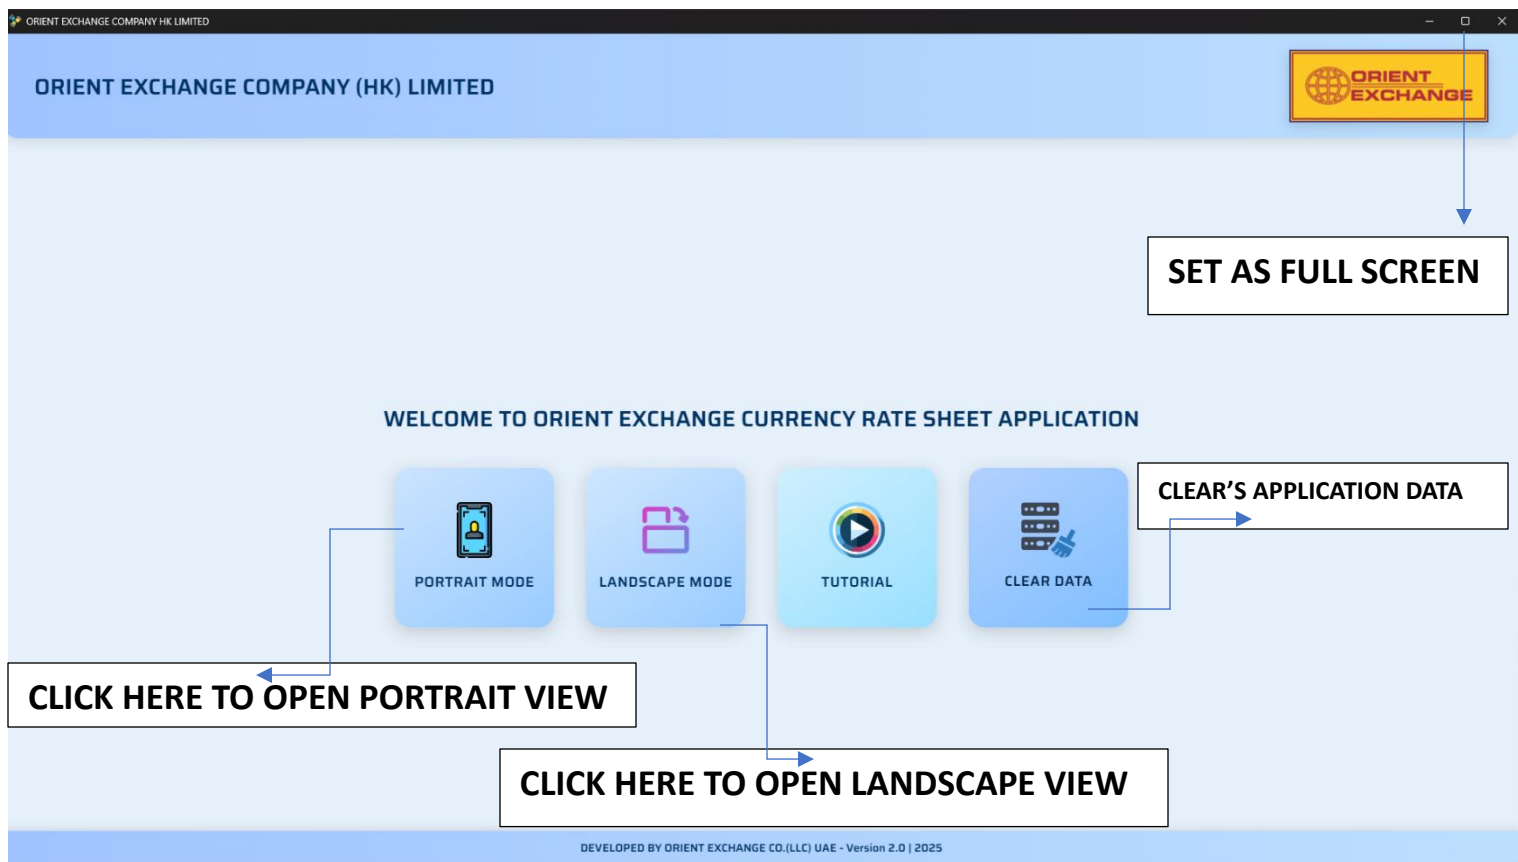

- Ensure consistent and real-time distribution of currency exchange rates.
- Provide branches with the flexibility to make controlled rate adjustments.
- Display promotional content automatically using timers.

This guide provides instructions for Branch users to manage currencies & rates.

**ORIENT EXCHANGE CURRENCY RATE SHEET APPLICATION ICON**

please refresh the application by **pressing Ctrl + R on your keyboard** to apply the changes.

### Welcome to the Application!

After launching the application, you will see the Welcome Page. Here's what you can do from this page:

#### 1. Portrait Mode:

- Open the Rate Sheet in portrait orientation.
- All content will be optimized for a vertical screen view.

#### 2. Landscape Mode:

- Open the Rate Sheet in landscape orientation.
- The display will adjust for a horizontal screen view.

#### 3. Clear Data:

- Click this button to clear all application data.
- This will refresh the app and reset it to its default state.

Switch between portrait and landscape modes as needed for better visibility and convenience.

### Landscape Mode Settings

#### 1. Branch Name:

- You can set or change the branch name in landscape mode.
- Click “Change Branch Name” to open the Settings Panel.

#### 2. Settings Panel Visibility:

- Press F9 to hide or show the Settings Panel.
- This is useful when displaying the app on a TV screen, so only the rate sheet is visible to customers, and the panel buttons remain hidden.

#### 3. Marquee Message:

- Click on the marquee to set or update the scrolling message displayed in the app.

CLICK HERE TO INSERT CURRENCY DETAILS

The screenshot displays the 'Settings Panel' of the 'ORIENT EXCHANGE COMPANY (HK) LIMITED' application. The panel is divided into three main sections: 'Upload Currency CSV', 'Promotions / Ads', and 'Rotation Intervals'. The 'Upload Currency CSV' section includes a 'Choose File' button and a 'Save' button. The 'Promotions / Ads' section has an 'Enable Promotions' checkbox, an 'Upload images or videos' section with a 'Choose Files' button, and a 'Save Promotions' button. The 'Rotation Intervals' section contains two input fields: 'Currency Rotate Interval (seconds)' and 'Currency Chunk Size (currencies per rotation)'. Annotations with arrows point from text boxes to these specific UI elements: 'CLICK HERE TO INSERT CURRENCY DETAILS' points to the 'Choose File' button; 'ENABLE/DISABLE ADS' points to the 'Enable Promotions' checkbox; 'SELECT ADS FOR DISPLAYING' points to the 'Choose Files' button; 'SPEED OF SHOWING NEXT CURRENCY' points to the 'Currency Rotate Interval' input field; and 'NO. OF CURRENCIES TO BE DISPLAYED' points to the 'Currency Chunk Size' input field. In the background, a list of currencies is visible on the left, and a 'SELL RATE' table is on the right.

Currency	Sell Rate
KUWAITI DINAR	55.65
BAHRAIN DINAR	0
EURO	56.78
AZERBAIJANIAN MANAT	2.2
BRAZILIAN REAL	5.63
CANADIAN DOLLAR	11.2356
SAUDI RIYAL	22.56

### Application Features: Currency and Ads Management

#### 1. Enable/Disable Ads:

- Click this option to choose whether the application displays ads or not.

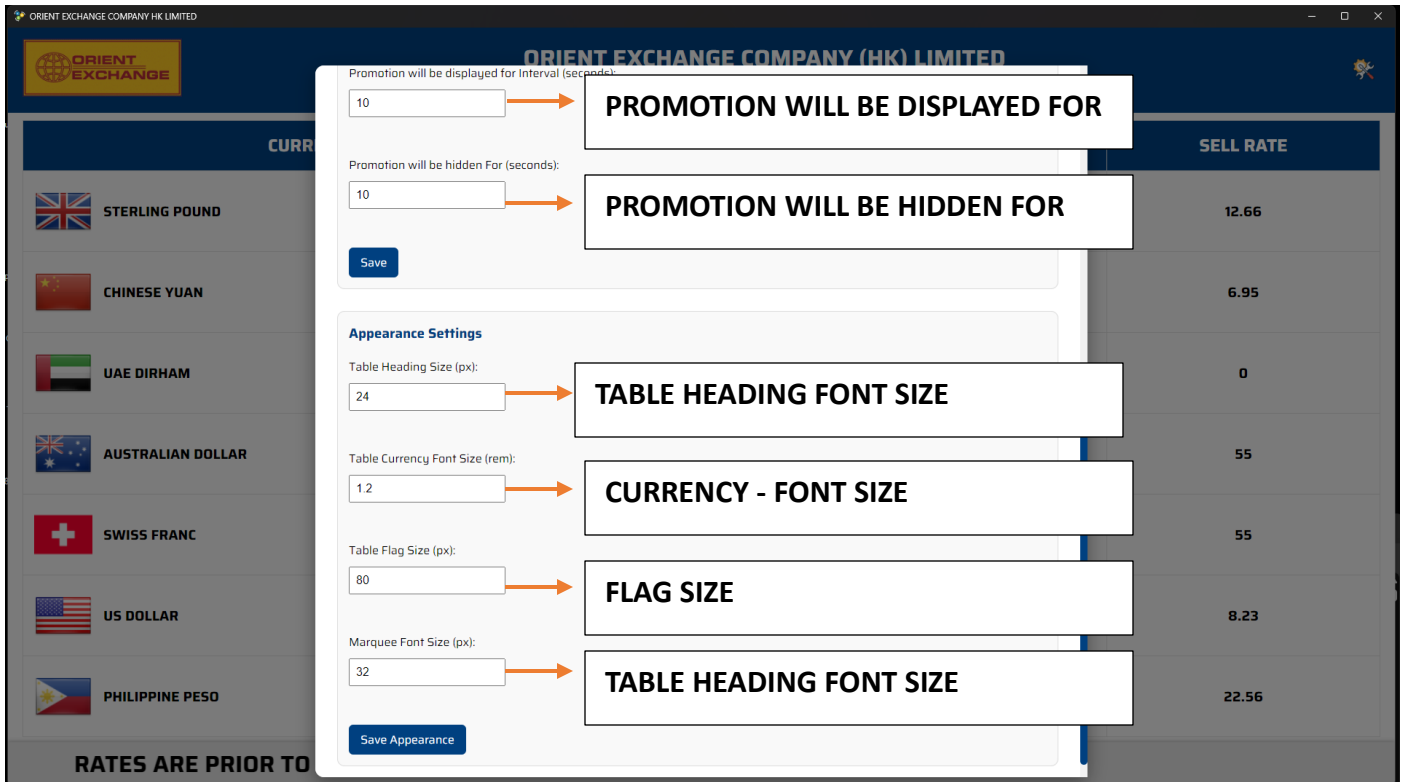

#### 2. Upload Currency CSV:

- You can add new currencies to the application by uploading a CSV file.
- CSV File Requirements:
  - Must include the following headers:
    - Currency Code
    - Currency Name
    - Buy Rate
    - Sell Rate
    - TT/Remittance Rate
- An example CSV file is already included in the project folder.
- You can add as many currencies as you want.
- The application will automatically fetch flag images for the added currencies.

#### 3. Display Settings for Currencies:

- You can choose to display images or MP4 files for each currency.

**Note:** After saving the settings, please **refresh the application by pressing Ctrl + R on your keyboard to apply the changes and make them visible on the screen.**

- Set the intervals to control:
  - How fast the next set of currencies appears.
  - How many currencies are displayed per page.

### Additional Application Settings

#### 1. Promotion Timing:

- You can set the duration for which a promotion is displayed.
- Set the visible time (in seconds) and the hidden time (in seconds) according to your preference.

#### 2. Currency Display Speed:

- Control how quickly the currencies change or rotate on the screen.
- Adjust the speed to match your desired pace for viewing currency data.

#### 3. Appearance Settings:

- Customize the look and feel of the application:
  - **Table Headings:** Set the font size for currency headers such as Currency Code, Buy Rate, Sell Rate, TT/Remittance Rate.
  - **Table Data Text:** Adjust the text size of the currency values. Use REM format (e.g., 1.2, 1.3, 1.6) for consistent scaling.
  - **Flag Size:** Resize currency flags to make them larger or smaller as needed.
  - **Marquee Message Font Size:** Set the font size for scrolling messages displayed in the app.

## Portrait Mode Settings Panel

### 1. Ads Management:

- You can enable or disable advertisements from this panel.
- To display promotions, you must upload ads in image or MP4 format.
- Ad Interval: Set the duration (in seconds) for which each ad will be visible and hidden.
- Add Rotate Interval: Define the time after which a new ad will appear on the screen.

### 2. Currency Display Interval:

- Set the time interval after which new currencies will be displayed on the screen.

### 3. Upload Currency CSV:

- You can upload currencies in CSV format.
- Use the same CSV format as in landscape mode with the following headers:
  - Currency Code
  - Currency Name
  - Buy Rate
  - Sell Rate
  - TT Rate

**Note:** After clicking “*Save Settings*”, please *refresh the application* by pressing ***Ctrl + R*** on your keyboard to apply the changes.

### **Full Screen Mode**

- Click the **maximize button** to display the application in full screen, for example when **showing it on a TV screen**.
- To **exit full screen** or close the application, press the **Esc key on your keyboard**.
- Click **F9** to **hide the settings panel button in Landscape mode**.
